Original Brownies to GO

Impulse chocolate snacking

Responding to the trend for premium indulgence, we have been working on a real chocolate Brownie bar. Many foodservice customers will be in search of no less than a 'total treat' by way of a chocolate snack, when nothing beats the aroma of classic American Style Brownies. We wanted to offer people a convenience option for a real chocolate cake temptation. A single packed cake bar offers the perfect option for 'eat in' and 'grab an go'.

Cake Brownie bar

Our type of cake brownie bar is similar to the first recorded brownie recipe: cakey and mild, containing real chocolate. Our cake Brownie bar to GO is a perfect response to the trend of: 'Comfort' Indulgent - on the move snacking (source: Synergy) and chocolate becomes more popular as a dessert flavour.
